An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 8-12.

This application is in condition for allowance except for the presence of claims 8-12 directed to a species non-elected without traverse. Accordingly, claims 8-12 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-7 and 13-21 are allowed as the prior art does not teach or suggest the applicant's invention. The amended claim language and the applicant's remarks in response to the Office Action (mailed on 5/24/2006) distinguish the application's invention over the references that accompanied the Office Action. Claims 1, 13, and 21 teach a method and apparatus for estimating repeatable runout. The distinguishing elements of the claims teach reading position error signals for non-consecutive revolutions to obtain position error signal data and combining the position error signal data of two or more of the non-consecutive revolutions to obtain an estimate of repeatable runout.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
